a mile higher

intrigued

i might be

fascinated

possibly

am i addicted

she's an addiction

what do you think

i'm distracted

i've got to stay focused

she's a distraction however

. . . a very attractive distraction

phenomenal

. . . possibly astronomical even

one of kind

i'm rambling

i do it a lot apparently

but damn . . .

what a conversation

i'm leaving soon

off to the apple again

but i wish i was a mile higher

i'm alone

she's taken

i hate love

but i love her

i don't want to hold her

i'm afraid to

if i do i won't want to let go

i won't want to leave

i'm scared of her

i'm afraid that i'll fall in love

i believe that i already have

i wonder if she could love me

if she does i'll never let her go

if only i could tell her

i'm afraid to let her know

i hate love

i love her

extraordinary conversation

gees

jeez

miss me

no

what

i couldn't

huh

i wouldn't i refused to

and why's that

look outside

what

miss me

should we fall

i think i'm falling

will you catch me

i'm so afraid

what is this i'm feeling

i've never felt like this

i can't think straight

but all i do is think

i know that you feel it too

well i'm pretty sure that you do

soon we'll be together

you'll have me

i'll have you

i don't think that i deserve you

should i continue to fall

what i deserve

a note for the one who fills my mind

**i don't think that i deserve you
because i'm a bad man
and you're better than me
i've made many mistakes
and i'm still making them
probably because i'm stubborn
possibly even afraid
but i want to be your man
and i don't think that i deserve you
you deserve better than me
and what i deserve is loneliness**

strange surprise

**i must have been dreaming
because when i woke up you were in my arms
i'm not sure how you had gotten here
this is a strange surprise
i wanted you and now i have you
i'm so lucky and this is a dream that has come true
but this has to be a dream
you're a mile higher and farther away
you're fast asleep and next to me
and i can't take my eyes off of you
you're so cute when you dream
i must be dreaming too
i kissed you
i needed you
i have you
i hope i never wake up**

**you're a mile higher
but i wish you were a mile away**

something

nothing . . .

nothing in the vast ocean of the desert

nowhere as you walk aimlessly throughout

no one as you helplessly search the land

nothing . . .

nothing in the mast ocean of the sand

nothing . . .

somehow there's something always on your mind

her regret

**she thinks she regrets him
he's falling more and more
she said she'd catch him
but he's still falling
he falls into her bed
she kisses him softly
he begins to explore her
she has wanted him for so long
he needed her and now he has her
she thinks she regrets him
but he's still falling
he has to get her off of his mind
she falls fast asleep
he leaves with one last kiss
and again she's left alone
she doesn't know it but she's his world
he knows he doesn't deserve her
she doesn't think she needs him
but he has to forget about her
he got lost in those brown eyes
she wanted him to be lost
he needed her in his life
and she regretted him**

there's this man

there's this man

he's a lonely man in a lonely room

there's an emptiness within him

his head hurts

he can hardly think straight

his heart aches for this woman

her dream came true

she can hardly think straight

her heart beats for this man

and this man . . .

his heart ached for her

and there's this man . . .

he once was a lonely man

this lonely man no longer feels alone

our first goodbye

... or could it be the last

**as i stood there i wanted to die
i knew this was it
it was finally our first goodbye
should i kiss her
i held her in my arms
am i doomed to wonder
i held her as long as i could
why am i doing this
i guess it's the right thing to do
we rushed this love
i must leave i have to
the first time i left i failed
i'm afraid of this woman
so that's why i bailed
we said we'd try in the future
she seemed to look through me
with a "maybe" you can never be sure
i'm sure we'll be the best of friends
but for now here i am alone again
is this always how it ends**

dear distraction

what is this feeling that i'm feeling

what is this

i'm not sure

i wish i knew

what are you feeling

do you feel what i'm feeling

it can't be love because i don't believe in love

when i fell

i'm weak

she thinks i'm not

but she's wrong

very wrong

she has grown on me unfortunately

for she is my weakness

i made a mistake

i'm good at making those

i shouldn't have kissed her

she said she catch me

she didn't

i fell right through her

she looked right through me

when i fell i hit hard

i'll never be the same

turn it off

it's hard to bear

my mind aches

my head hurts

i can't stop thinking

i think about her constantly

i go to sleep to get away from reality

i even dream of her - go figure

why did i even go there

if only i could shut her out

but i can't

i don't know how

she turned it on

how do i shut it off

dreams come and go

dreams come and go . . .

**as rain falls from the sky
lands on my hand . . .**

**a tear falls from eye . . .
not only to land . . .**

in the very same place

dreams come and go . . .

how does it feel

how does it feel

and i wonder

how does it feel to be alone

how does it feel

and i wonder

how does it feel to be unloved

and i wonder

how does it feel

how does it feel to be in love

and i wonder

how does it feel

how does it feel to be alone

and i wonder

how does it feel

tomorrow

i sit and wonder

if i'll ever see tomorrow

outside listening to the thunder

i guess i'll never know

if today will ever end

wondering what to do

if i could just spend

another day with you

another night

wondering if today

will end tonight

maybe someday

we'll be together again

i guess i'll never know

but still i wonder when

if i'll ever see tomorrow

just another day

tomorrow will always be

one day away

maybe one day you'll be with me

maybe mine

**how can i tell you
don't know what to say
don't know what to do
how can i find a way
to be with you again
i'll tell you someday
i don't know when
but maybe one day
everything will be fine
i'll wonder how
you'll be mine
but for now
you're taken
and that's fine
one day i'll awaken
and you'll be mine**

sometimes i cry

now i know

but wonder why

and even though

sometimes i cry

i hold inside

my feelings for you

sometimes i hide

i'm in love with you

and i imagine holding you

and sometimes even kissing you

now you know

but still wonder why

and even though

sometimes i cry

shining bright

**once and again
here you are
shining bright
a shining star
throughout the night
you fill my mind
a colorful light
guides my heart
and despite the dark
the aspects of night
here you are
shining bright**

and in my apology

**i have to tell you
the things to say
but this much is true
it's the only way
but i'm in love with you
and i'm sorry
for the things i put you through
and in my apology**

**i have to tell you
how you swept me away
not knowing what to do
in this game we play
the things we've lost
that meant so much
whatever the cost
it's your gentle touch
and the only way
but this much is true
so many things to say
and that i'm in love with you**

and this is my apology

then there is love

a desire you can't push or fight

the moment that's right

the moment too soon

events will come

that leads the way

then there is love

that brightens your day

if feelings could say

lead me the way

and right from wrong

you knew all along

the things to say

so right and true

if you only knew

what it could do

then there is love

with a promise

**once was lost
now is found
whatever the cost
i've searched around
and with tonight
without a sound
and wrong from right
i finally found
but if i had
the things to say
besides the pad
and with today
all and all
just one kiss
we're sure to fall
with a promise**

still i love you

**i love you more than words can say
sometimes i don't know why i act this way
no matter what i do
i still love you
but at times
i say things that hurt
but still i love you
and i'll try harder
through time and time
make mistakes
again and again
but i want you to know
no matter what i do
i still love you**

in my life

from the moment i saw you

i knew

you couldn't tell

but i knew

i wanted you

i wanted you in my life

but that doesn't matter

you can't see

the way i see

and every time i look at you

every time i see you

i smile

like a dream come true

smiling because i found you

and i need you

in my life

through my eyes

the way her eyes light up when she smiles

as if they twinkle like stars

and it's not the way i look at her

it's the way i see her

through my eyes

the way she looks at me

like an angel in disguise

surprising me with a smile

and if you could see the way i see

you'd fall just like me

watch the way her eyes light up

twinkling like stars when she laughs

i got my wish when she smiled at me

friends

my special friend

ever so kind

our friendship will never end

how lucky i was to find

such a wonderful friend

and i thank you

**so many things i have had
many things i have lost
but one thing is certain
i have you in my life
and i am thankful**

**i thank you for everything
and most of all being there**

there i am

**you may or may not know
you may even wonder why
but deep inside within you
deep in your heart**

there i am

**there's a burning a yearning to hold me
take a breath and make me see
open my eyes and take my breath
you may now know
you still may wonder why
but deep inside within you
within your heart
there i am**

more than i can handle

before i turn off the lights

before i close my eyes

i think of you

i dream of you

i wish for you

when i wake up in the middle of the night

you're the first thought in my head

standing alone

walking the roads in my head

searching my mind

i come around a bend

and what do i find

i'm standing at her door

i raise my hand

then drop it to the floor

dreaming hoping wishing

**i sit there listening to every word she is saying
i lie there thinking sitting there wondering
dreaming that maybe she could be with me
she sits there talking to me about moving
she lies there dreaming sitting there pondering
hoping that maybe she could be with me
i lie there remembering her hand i was holding
her lips i was kissing her body i was cherishing
wishing that maybe she could be with me
i start to get sleepy and she begins yawning
i fall asleep and she starts to dream
dreaming that maybe she could be with me
i go out walking and the rain starts falling
my eyes begin walking then the tears start coming
hoping that maybe she could be with me
she starts crying and it's me she is missing
deep and deeper she is falling and i am wishing
wishing that maybe she could be with me**

all that matters

does it matter

how i look at you

does it matter

how i see you

all that matters

is how i feel

doesn't matter

how i look at you

doesn't matter

how i see you

i found you

as i awaken

i look into the skies

my breath you've taken

as you look into my eyes

a star shot across the sky

my wish came true

looking into your eyes

i found you

seeing you smile

stars fall from the sky

it's worth all the while

as the light up your eyes

an angel from heaven

fallen out of the skies

my heart you've taken

as you look into my eyes

a star fell from the sky

my dream came true

looking into your eyes

i found you

lost and found nothing

searching . . .

i lost something

i've lost my way

lost everything

the words i needed to say

searching . . .

i lost sight

lost the day

lost the night

lost the words

the words i wanted to say

still searching . . .

found nothing

when will i see

i've lost you

three words to say

so many words to say

i'll sum it up in three

i love you
